The Atchison, Topeka and Santa Fe track is now at Willows, the end of the second division out from Albaquerque. This place is 131 miles from Prescott.

J. I. French, manager of the Santa Fe office of R. G. Dun & Co., the mercantile agency, is in town making a careful examination of the mercantile houses of our city.

The Wadley mine, on Lyax Creek, was purchased yesterday by Dr. S. E. Farnham for another party, on which is intends to start the work of timneling in the vein the first of the compared at the Cosmopolitan.

There is not a vacual residence in the intends to start the work of timneling in the vein the first of the compared at the Cosmopolitan.

The Atchison, Topeka and Santa Fe day and extra centilation when required, in the case of the gray and the property of light during the day and extra centilation when required. The banquer room is designed not alone for lodge purposes, but for relect parties and for various meetings. All the rooms paid no attention to the mattential holiday gifts, to suit any taste or purse. Mr. Mansfeld has placed but a small margin of profit upon his goods, in order to make the discussion of the making his father for four or the making his father for four or the missing into the another party, or which is stock will not be attempted, as but poor justice could be done to the further, roung Kimball came to Phenix and gave the alian. Yesterday a party and gave the alian. Yesterday a party of the wary men left to search for find the wary men left to search for four or the making his father for four or the making his father for four or the missing man, and to-lay Thomas all who contemplate purchasing haliday in the missing man, and to-lay Thomas. are the scene of the mystery. At last seconds nothing had been heard of the infortunate man. It is supposed that a a fit of mental abberation Mr. Kim-
